

Last revised on 17 April 2007

Micro Tool & Machine Ltd. (MTM) designs and builds highly specialized machinery for the transformer industry, incorporating the latest technologies with old-world precision machine work. Our products are trusted by many top-tier manufacturers worldwide. MTM is the only company in Canada in this area of expertise. We employ a small but very skilled workforce of sixteen.

To view our finished products see our website www.mtm-core-shears.com.

We are looking for a few good people who want to be a part of something different, aspire to perfection, have the initiative to innovate, and are eager to further develop their skills.

Machinist. (Full time days)

Level 2, 3 or 4 to operate centre lathes, milling machines, cylindrical and surface grinders, making small batch components for the machines we design and manufacture.

Remuneration is commensurate with experience and includes an excellent benefits package.

Machine Builder. (Full time days)

This combines some hydraulics, pneumatics, electrical and mechanical assembly of our machines we design and manufacture.

Remuneration is commensurate with experience and knowledge; included is an excellent benefits package.

Please forward your resume to Ken Booth, General Manager, MTM.
